

Fact Sheet: Learn more about BlueTux

The team at BlueTux prides itself on the high quality of service, professionalism and responsiveness we provide to clients. When it comes to website design, hosting, and maintenance; we are the experts.

The Company

Established in 2002, BlueTux Internet Services is a community-minded web design company based in Port Angeles Washington. BlueTux is a full-service internet strategy partner that provides website design, hosting, maintenance, and marketing services to small and medium sized businesses. The team at BlueTux is energetic, talented and educated in the technologies used to help businesses succeed online.

Custom business solutions and leading-edge technology are important factors in ensuring the success of each BlueTux Internet Services client.

Our Services

We stick to our core competencies and we are very experienced and quick at providing the following services:

Design: From small one-page brochure sites to large database-driven sites.

Maintenance: We can update almost any site on any server for you easily.

Re-Design: Give your 'old' site a fresh new look with our re-design services.

Programming: From simple mailer forms to custom eCommerce shopping carts.

Hosting: We host sites small and large with 99.9% uptime and phone support.

Consulting: Have Questions? We have answers and you can use us to get them quickly.

Domain Registration: When you need a domain register it through us for easy management.

Our Promise to Clients

Our clients are our partners. We share their vision and are dedicated to achieving their goals. No assignment is unimportant and we will deliver projects on time and above expectations. Excellence is the base standard from which we seek to improve. "Good enough" is never good enough for us!

A Community-Minded Company

We have helped develop the United Way's website for the last few years and BlueTux President Michael Quinn serves on the United Way's board.
Online: www.unitedwayclallam.org

BlueTux created a simple website for the OMH Foundation to list their upcoming fundraisers and member events.
Online: www.omhf.org

We provided a new website with all the dynamic features that the CCHS needed in order to develop their online presence.

What Makes BlueTux Different

Needs Analysis

1 To ensure that every website design delivers the maximum benefit to business owners, BlueTux performs a detailed needs analysis in order to fully understand each client's company goals and its customers.

Full Service

2 We will host your website and email accounts, perform maintenance, assist in your online marketing efforts and keep you informed about new technology that will enhance your online presence.

Knowledgeable Team

3 The team is not only well-educated, their education is ongoing to keep pace with the latest tools as new technologies develop.

Outstanding Customer Support

4 A member of our website design team will be the voice on the phone when you call with a request. We'll respond with personal and prompt service.

Fair Billing

5 BlueTux uses by-the-minute billing when working on clients' jobs. You pay reasonable rates and pay for only the time your work takes – to the minute!
